Experience

Flipkart Internet Pvt Ltd — Bengaluru, Karnataka
UI Engineer — *May 2026 – Present*

- Built a reusable, responsive **PAN verification bottom-sheet** in a legacy **class-component** React codebase with a **backend-driven (BFF) UI renderer**, shipped across **m-site, React Native, and web**; replaced agent-assisted PAN collection that held **INR 2 lakh+** orders.
- Built a **live order-tracking map** for an upcoming food-delivery app, drawing routes client-side from rider, origin, and destination coordinates using **encoded polylines**.
- Built an internal **network inspection and response-override tool** for React Native apps (Proxyman-style): a **MITM proxy** that captures traffic on Android and iOS, overrides responses, and serves **mock endpoints**.
- Fixed **deeplink and back-navigation issues** between m-site and React Native; delivered **pixel-perfect** post-order pages.

Zarasana Design & Development Studio — Remote
Freelance Full-Stack Developer — *Sep 2025 – Apr 2026*

- Contributed to a senior developer's independent freelance project, building features across the frontend and backend.
- Designed and developed responsive websites for local shops, creative agencies, and tour guides using **React, Next.js, and Tailwind CSS**.

Probo Media Technologies Pvt. Ltd. — Gurugram, India
Software Engineer — *Feb 2025 – Aug 2025*

- Built an internal **employee and asset lifecycle management system** using Next.js and PostgreSQL, automating workflows and improving operational efficiency by **40%**.
- Designed a scalable **Role-Based Access Control (RBAC)** multi-level approval engine (L1–L3) for vendor agreements, eliminating manual compliance checks.
- Developed **RESTful APIs** and optimized database queries using **indexing strategies** to improve system performance and reduce query latency.

Software Development Intern — *Aug 2024 – Feb 2025*

- Delivered a role-based performance review platform for **200+** employees within **10 days** with secure authentication workflows using **JWT and OAuth 2.0**.
- Integrated external REST APIs **(Spotdraft)** and **automated contract generation** workflows, reducing manual effort by **60%**.

Projects

Zarasana UI Component Library | *Next.js, TailwindCSS, motion.dev* — ui.zarasana.com

- Architected a reusable **UI component library** with **10+ production-ready components** and **CLI-based** integration tooling.
- Designed a scalable **theming architecture** supporting Neo-SaaS and Glassmorphism design systems.

BabaCreates (Personal Portfolio) | *Next.js, motion.dev, TailwindCSS, Sanity CMS* — babacreates.in
